## ALARMIST PICTURE OF EUROPE DRAWN

### THERE IS MENACE IN PRESENT SITUATION LLOYD GEORGE SAYS

Tells Newspaper Men They Must Take Cognizance of Hungry Russia Equipped by an Angry Germany—Wishes America Were at Genoa—Could Exert Great Influence

(By The Associated Press)  
GENOA, April 28.—Premier Lloyd George drew an alarmist picture of Europe tonight. In addressing British and American press representatives he declared that the object at Genoa was to clear up political difficulties, which were full of menace. He compared Europe to seething lava, which, like the earth's crust, was seeking a proper level. This adjustment was full of peril. He emphasized that Europe must take cognizance of hungry Russia, which would be equipped by an angry Germany.

"The world must recognize the fact," he said, "that Russia and Germany combined contain over two-thirds of the people of Europe. Their voice will be heard and the Russo-German treaty is the first warning of it."

He cited the fact that there was no frontier line from the Baltic to the Black Sea, including the Rumanian, Galician, Polish and Lithuanian frontiers which had been accepted.

## ILLINOIS MAY HAVE ONLY ONE ELECTION DAY

### Con Con Vote to Have One Annual Election Day

(By The Associated Press)  
SPRINGFIELD, Ill., April 26.—One election day each was prescribed for Illinois by the constitutional convention tonight. By a vote of 54 to 9, the convention adopted the Trautman proposal fixing the first Tuesday after the first Monday of November as annual election day, declaring it to be a holiday.

After January 1, 1927 the general assembly, by a two thirds vote is authorized to provide other election dates if the one day limitation proves unsatisfactory.

Confusion and complexities of long ballots could be avoided, delegates of the East St. Louis said, by providing for municipal, judicial and school elections in "off" years when there would be no conflict with the general election.

Expenses of holding numerous elections each, even numbered year were made the basis of arguments for the one day plan. In spite of the contention that long ballots and complications at the polls in voting and counting returns can be avoided opponents of the Trautman plan insisted that the one day provision would result in complex situations.

Authorizing the general assembly to provide for the organization of drainage districts with power of eminent domain and special assessment for flood control was sent back to the committee on phraseology and style when the convention failed to make any progress towards the settlement of a controversy over the question of the state's participation in bearing the expense incurred in drainage and reclamation enterprises for private pursuits.

Need of reforestation in Illinois was recognized by the convention in adoption of a section requiring the general assembly to enact laws encouraging forestry and authorizing the legislature to classify for taxation areas devoted to forest culture.

## DUPLICATE BOND QUESTION COMES UP IN THE HOUSE

### Wingo Democrat Defends Secretary Mellon in Debate

(By The Associated Press)  
WASHINGTON, April 26.—The statement was made in the house today by Representative Johnson, Republican, South Dakota, that it will later be shown by official documents that there probably are hundreds of millions of dollars of duplicate bonds in the United States.

Prompt denial was made by high officials, who declared investigation by Secretary Mellon of the bureau of engraving had disclosed there was no truth in reports of the circulation on a large scale of counterfeit government securities.

Challenging the Johnson statement, Representative Wingo, Democratic member of the house banking committee declared it was calculated to cause uneasiness in the country and that he did not believe Mr. Johnson ought to make it, "unless he can back it up as the truth."

Mr. Wingo expressed belief that an investigation would show that Secretary Mellon in denying reckless charges about the existence of duplicate bonds did not lie to the people.

Mr. Johnson said that J. W. McCarter, assistant registrar of the treasury during the Wilson administration "secured information in the course of his duties which convinced him that there had been enormous duplication of government bonds which had been printed by the bureau of engraving and printing and had gone thru the office of the registrar of the treasury."

"I think Mr. McCarter took the right attitude when he presented the matter first to a distinguished Democratic senator from my state and very properly presented the matter to the assistant secretary of the treasury," Mr. Johnson continued.

He was very quickly informed at that time by the former administration that nothing was wrong, that there should be no investigation and that he should keep his mouth shut or lose his position and Mr. McCarter, who had developed the fact that later will be shown by official documents, that there are probably hundreds of millions of dollars of duplicate bonds in the United States was discharged from service by his administration for presenting those facts to members of congress. I think a man who took that attitude in the former administration was ill-advised in what he had done."

## Wingo Defends Mellon

Mr. Wingo declared he took it that no member of congress "would be so reckless of the public welfare as to stifle the facts with reference to any matter that involves the public credit or instruments of the government in the hands of citizens and banks and trust companies."

"While the present secretary of the treasury belongs to a different political party from that to which I belong," said Mr. Wingo, "I do not believe he is going to tell the country a falsehood and when he said a few days ago that there was nothing in the statements that were sent broadcast, and that they could have nothing but a bad effect on the credit of the United States and bring uneasiness to investors and banks and holders of trust funds, that might hold the bonds of the United States, I say that when Secretary Mellon said that these wild reckless statements were false I believe that Secretary Mellon spoke with knowledge of the facts and that he would not deny it if it were true, but that the man certainly would take the merican people into his confidence and say so if it were true."

High treasury officials declared that the charges by former assistant registrar McCarter were denied by former Houston at the time as baseless and in the opinion of the treasury effectively disposed of.

A taxi-cab driver was arrested at the time, they added, with liberty bonds which were found to have been stolen, but not duplicates.

## DAUGHTER OF WELL KNOWN MICHIGAN MAN IS SUICIDE

### Mrs. Jeanette Mickel of Bay City Takes Poison in Chicago

(By The Associated Press)  
CHICAGO, April 26.—Jeanette Mickel daughter of R. H. Fletcher of Bay City, Michigan, candidate for the Republican nomination for governor in the coming June primaries, committed suicide today by taking poison.

Mrs. Mickel, known several years ago as the most beautiful woman in Cleveland, recently was divorced from her husband, W. J. Mickel, state food administrator of Michigan. She died at the Chicago General Hospital.

She is said to be a cousin of Rear Admiral Fletcher.

The woman's father is on his way to Chicago and will arrive tomorrow, a message from Bay City said today.

Mrs. Mickel lived in Cleveland until a year ago last March, when she came to Chicago. She had been living here at a rooming house conducted by Frank McKay, whom she met in Cleveland.

Mr. McKay said Mrs. Mickel had been despondent recently. Physicians at the hospital said Mrs. Mickel evidently had suffered from a nervous breakdown. It was said she had made seven previous attempts to take her life. The woman was found last Saturday suffering from the effects of a drug and was removed secretly to the hospital.

## HEDDING COLLEGE WILL BE MOVED TO MOLINE, ILLINOIS

### This Action Will be Taken If That City Raises \$800,000

(By The Associated Press)  
PEORIA, April 26.—The Central Illinois Methodist conference in session here this afternoon voted to transfer Heddington College to Moline, Illinois, providing Moline carries out her part of the agreement to raise \$800,000.

The action ends a series of attempts to take the institution away from Abingdon. One of the propositions considered but turned down, was to merge the college with Illinois Wesleyan at Bloomington.

No further action will be taken on the matter of transfer until a report of a committee in charge of solicitation of funds in Moline makes a report.

In an effort to hold the college Abingdon agreed to raise \$100,000 but the offer of Moline was accepted.

The 125 delegates of today's meeting represented about 50,000 members of the Methodist Church in this conference.

(By The Associated Press)  
NEW YORK, April 26.—"Untrue" was the reply which counsel for Mr. and Mrs. A. A. Vonsiatkoy-Vonsiatkoy today to the claim of a woman living in Paris that the Russian employee of the Baldwin Locomotive works was married to her at the time that he wed Mrs. Marion B. Ream-Stephens, Chicago heiress last February.

The statement was issued after the 23 year old Russian and his 45 year old bride had come here from Philadelphia to confer with their lawyer, Mr. Vonsiatkoy. Vonsiatkoy wishes to deny emphatically that he has any wife other than the lady who was Mrs. Stephens and whom he married in New York recently, read the statement.

"The woman calling herself Mrs. Vonsiatkoy-Vonsiatkoy has been registered and living in Paris for some years past as an unmarried woman under the name of Mlle. Mourousky. She is a Russian and has lived in Mourm. Her right name is Gourevitch. Mr. Vonsiatkoy-Vonsiatkoy met her in the Crimea and they have never lived together as husband and wife, nor until now has she claimed to be married."

## OFFICIAL REPORT ON FLOOD SITUATION IS MADE TO GOVERNOR

### Committee Made Investigation of Conditions Between Havana and Naples—Conditions Are Worst at the Latter Place—Flood Conditions in Other Parts of the Country

(By The Associated Press)  
SPRINGFIELD, Ill., April 26.—Official reports on their preliminary survey of conditions in towns in the flooded Illinois river valley were dispatched to Governor Small at Waukegan tonight by three members of the committee appointed by the governor to represent the state in proposed plans to give aid to the flood stricken inhabitants.

Attached to the general report by Colonel Richings J. Shand were preliminary recommendations by Dr. I. D. Rawlings director of the state health department dealing with sanitary problems to be met when the waters recede, and by Frank T. Sheets, superintendent of highways, outlining some of the immediate engineering work necessary to start Beardstown back on the road to recovery.

Colonel Shand, in his report to the governor, said in part:

"In view of the attitude and the expressions from the mayor and local committees at Beardstown it is suggested that no more shipments of foodstuffs or clothing be made by outside relief agencies, but that all such relief should be made in the form of money contributions as in the opinion of the officials of Beardstown and your committee the great need will be funds for the rehabilitation of the town, when the waters have subsided and the maintenance of the refugees until this has been accomplished."

"Altho it cannot be determined at this time, there is no question but what the foundation of many buildings have been undermined by the high water, sewage system damaged and that it will require a considerable sum to place the town in a normal condition."

"After we had made a complete tour of Beardstown in row boats, under the direction of the mayor and other officials, we then proceeded down the river to Naples where we consulted with Mrs. John T. Chambers, mayor, and Mr. I. N. Edwards, chairman of the relief committee. Mr. Edwards has handled the situation in a very capable and energetic manner."

## FOUR JURORS ARE CHOSEN IN SMALL TRIAL YESTERDAY

### Progress is Made in Trial of Governor for Conspiracy

(By The Associated Press)  
WAUKEGAN, Ill., April 26.—Four jurors were selected and sworn in today for the trial of Governor Len Small charged with conspiracy to embezzle state interest money while he was state treasurer in 1917 and 1918.

Three native born Americans and a native of Porto Rico comprise the first panel. Under Illinois laws juries are selected and sworn in groups of four.

The first panel was completed after 64 men had been examined. One juror came from the venire of 100 called Monday for the start of the trial and the other three from the 16 men questioned today when a second venire of 100 reported.

Second only in interest to the completion of the first panel was the declaration by lawyers for the state today that they expect to depend partially, and probably largely on circumstantial evidence in their effort to convict the governor. This announcement was made after Judge Edwards had denied a challenge for Mike Leonard, steel mill timekeeper who said he would not convict a defendant on evidence of this class.

The denial of the challenge provoked a wrangle in which the jurors were excluded from the room while attorneys argued the point of law involved.

"Could you be convinced of the guilt of this defendant beyond reasonable doubt?" Ralph Dady of the prosecution had asked Mr. Leonard, after the prospective juror had admitted possessing an opinion on the case.

"If I was shown where I was wrong," the spokesman answered. "Could you be convinced by circumstantial evidence?"

"No."

"Challenge for cause," the assistant prosecutor said, turning to the court.

Judge Edwards denied the challenge.

"If I thought circumstantial evidence was all the evidence you had I would sustain the challenge," the court said, "but I don't think circumstantial evidence is an element in this case."

"Surely your honor is not going to ask us to state now whether anybody who was there when this conspiracy was formed is going to turn state evidence?" Mr. Dady protested.

"Do you want to say you are going to rely on circumstantial evidence in this case?" the court asked.

"Partially," replied J. H. Wilkerson, assistant attorney general.

"Put New Element in Case."

"Well," the court said, "you are putting a new element in this case, an element which I don't think belongs here, and if you are going to ask all these jurors if they are willing to convict on circumstantial evidence..."

Beardstown, Ill., April 26.—Beardstown, principal city of the Illinois valley affected by the flood today sent notice and aid to some of the smaller towns where relief work has not been so well organized as here.

Aboard the cabin launch "Albion" owned by A. J. Schulze, head of a large milling concern, members of the Beardstown flood relief committee and Salvation Army workers visited Frederick and Browning, small up-river towns with supplies.

At Browning residents of the little village were in a state of semi-bewilderment over their predicament and altho there was little actual distress, food supplies were said to be running low while refugees were crowded into tents too few to satisfactorily accommodate the homeless.

Lieutenant Hall of the Salvation Army was left at Browning by his commander, Captain F. H. Brewer.

Fisher folk and railroad workers at Frederick welcomed relief from their visitors, as some of the poorer people had begun to feel the pinch of livelihood temporarily ended by the coal strike and the flood.

Beardstown felt encouraged by a continued drop in the river. Here and there on some of the higher streets spots of pavement appeared above the water for the first time in two weeks. The water tonight had receded about (Continued on Page Four.)

Action Comes After Long Investigation by Federal Agents  
(By The Associated Press)  
PEORIA, Ill., April 26.—At least ten more Peoria doctors are expected to be haled into federal court on charges of illegal sales of intoxicating liquor as the result of a long investigation by federal authorities which resulted in indictment of several physicians today and two druggists.

Proprietors of the Jeffries Pharmacy furnished \$25,000 bond having been indicted jointly with four doctors on charges of being in a conspiracy against the government by the illegal issuance of liquor prescription blanks.

It is charged the drug store bought whole books of prescriptions from doctors and illegally issued them to purchasers of liquor.

The country will not be greatly alarmed over Congressman Johnson's charge that millions of dollars worth of duplicated government bonds are now scattered all over the U. S. Secretary Mellon a few days ago entered an absolute denial of a similar charge, and the country knows that Mr. Mellon is not given to either truth distortion or camouflage.

Lloyd George at the Genoa conference yesterday did not speak in soft sentences in warning the world of the war menace there is in the German-Russian alliance. He laid emphasis upon the fact that two-thirds of the population of Europe is represented in that alliance.

The season is at hand when railroad authorities struggle for weeks in figuring out the spring time cards. People without knowledge of railroad affairs wonder why changes in schedules are found advisable so often and why last spring's card didn't fit this year.

A current magazine has an article about the community house at Winnetka and gives interesting facts to support the theory that the building mentioned has much to do with the fine spirit which prevails in Winnetka. The details given are no doubt true. Perhaps a group of such houses would help in solving Chicago's difficulties. At any rate, Winnetka is so near Chicago that some of the citizens there should go out to the suburb and study the methods.

One election day each year is the suggestion of the constitutional convention. While the multiplicity of election days now causes

annoyance and expense, there will be plenty of opposition to the one a year plan. The Con Con delegates must have heard about the Jacksonville record in casting 4200 ballots at one small polling place.

Talking about the constitutional convention brings the thought that unless the people of the state get rid of a certain amount of sectionalism and try more of a get-together spirit, that there will be little prospect of a majority approving some of the most important suggestions that the convention has made.

The Illinois Central is one Railroad which seems to have the confidence of its shareholders. The proposals for electrification and the building of a great station in Chicago have been approved by a heavy vote. The bonds to meet the expense the proposals carry with them will find ready sale, for Illinois Central stocks and bonds have made good returns to their owners.

**FINE, BUT IT WON'T WORK.**

A speaker at a meeting of the National League of Women Voters suggested a pledge for voters which, if taken and added to, would solve the question of good and bad government. The only trouble about this millennial program is that a majority of the voters would not take the pledge and if they did, would not live up to its provisions.

Here is the simple little pledge: "First—To inform yourself about public questions, the principles and policies of political parties and the qualifications of candidates for public office.

"Second—To vote according to my conscience in every election, primary or final at which I am entitled to vote.

"Third—To obey the law even when I am not in sympathy with all its provisions.

"Fourth—To support by all fair means, the policies that I approve of.

"Fifth—To respect the right of others to uphold convictions that may differ from my own.

"Sixth—To regard my citizenship as a public trust."

**WOULD RESTRICT USE OF LAKE WATERS**

Congressman Shaw Introduces Resolution Calling for Investigation of River and Sanitary District Conditions

Washington, April 26.—Determined to relieve the people of the Illinois valley from the damages resulting from the unrestricted use of the waters of Lake Michigan for the Chicago Sanitary District Drainage Canal, Congressman Shaw has introduced a resolution calling upon the secretary of war to transmit to the house of representatives the facts in his possession concerning the following matters:

The amount of water now being diverted from Lake Michigan into the Illinois River by way of the Chicago Sanitary District Drainage Canal; the effect and extent of pollution by the discharge of the Chicago Sanitary District Drainage Canal into the Illinois River on the plant and animal life therein; the effect on riparian lands by overflow based upon present actual flow of water; the effect of the present flow of water on the cost of the maintenance of drainage and levee districts; the effect on the cost of maintenance and damage to riparian landowners if the authorized flow of 4,167 cubic feet per second be increased to 10,000 cubic feet per second; the effect on water level of Lake Michigan and the other Great Lakes.

The introduction by Mr. Shaw of his resolution is the culmination of years of unsuccessful effort on the part of the inhabitants of the Illinois Valley to prevent the fifth of the City of Chicago from polluting the waters of the Illinois river to the extent to which it is claimed that has been done ever since the Chicago Sanitary District obtained a permit from the war department to divert to the canal 4,167 cubic feet of the waters of Lake Michigan per second.

On this subject Congressman Shaw said: "There never has been, it is said, any means by which the public could determine just how much water has been forced thru the canal since that permit was obtained, but it is claimed that it has been far in excess of the amount limited by the permit. It is a matter of common knowledge among residents of the Illinois Valley that the water of the river is polluted to such an extent that animal and vegetable life has been killed as far down the river as Havana, and thousands of acres of the best land and timber along the river have been damaged, it is claimed, as a result of the overflow of the river which, it is insisted, is largely due to the excessive water drawn off from Lake Michigan thru the drainage canal."

"At the time of the installation of the canal the Chicago Sanitary District agreed to make good any damages resulting from the overflow of the Illinois River due to the additional water emptied into the river by the canal. Numerous efforts have been made by those who have sustained such damages to recover under that agreement but without success."

MRS. ALVAH H. MCCREARY, of Philadelphia, who says nothing she could say for Tanlac would be half good enough after the way this remarkable medicine has brought back her health.

"It is just glorious to have my health back, and in my opinion there is nothing I can say about Tanlac that would be half good enough," said Mrs. Alvah H. McCreary, 1531 Locust St., Philadelphia, Pa.

"For two years I had all the miserable and agonizing symptoms that go with a bad case of stomach trouble. Although I lived on the strictest kind of diet I suffered torture from indigestion and finally my whole system seemed to give way.

"I certainly know how to appreciate the wonderful blessing of good health and I have such confidence in Tanlac that I wish it was in my power to put a bottle of it in the hands of every sick man, woman and child so that they might take it and get well and strong as I have done."

Tanlac is sold in Jacksonville by Coover Drug Co. and by Shreve Drug Co. and by leading drug stores everywhere.—Adv.

**NOW DO MY WORKWITHEASE**  
Because Lydia E. Pinkham's Vegetable Compound Restored My Health

Hornell, N.Y.—"I was in bad health but there didn't seem to be any one thing the matter with me. I was tired all over and it was an effort for me to move. I was irritable and could not sleep nights and had trouble with my bowels and at my periods. It seemed that nearly every one around me knew of my medicine and wanted me to try it, so at last I took Lydia E. Pinkham's Vegetable Compound Tablets and Lydia E. Pinkham's Blood Medicine and improved every day. I do all my own work now except the washing and do it with ease. I can accomplish as much in a day now as it would have taken me a week to do last winter and I try to get every one I know to take your medicine to build them up. You are welcome to use this letter as a testimonial if you like."—Mrs. CHAS. BAKER, 21 Spencer Ave., Hornell, N.Y.

In almost every neighborhood there are women who know of the value of Lydia E. Pinkham's Vegetable Compound. They know because they have taken it and have been helped. Why don't you give it a trial?

## HIGH SCHOOL NOTES

At the assembly period at high school yesterday a collection was taken for the benefit of the flood relief fund. The collection amounted to \$70. Of this amount \$10 was given by the Senior class the sum being taken from the class treasury and given by the students in addition to what the seniors gave in the general collection.

A dinner was served by a group of girls in the Freshman class of the Home Economics Department yesterday. This was one of the meals being planned, cooked and served by the girls in this class. The first year cooking class has been divided into four groups and each group has made out complete menu for the meals of one day. Each day one of the meals is served and the plan is proving a great benefit in the practical application of the general food principles taught in the class room.

The high school authorities are anxious that the parents of the students in the Junior and Senior classes understand that the Junior-Senior party, to be held Friday night, is over, so far as the school is concerned, after the banquet is finished at the Christian church. The school does not sanction dancing but if any individual gives a party and invites people to it, the school authorities feel that they have no available means for stopping this method of procedure. Any dance or party given or taken part in after the banquet is over, is not a school affair and is not chaperoned or attended by the faculty advisors of either of the two classes taking part in the dinner Friday night.

## BIG TASK KEEPING ROADS IN FIT SHAPE

County Now Has Care of One Hundred and Ninety Miles of State Aid Highways—Patrol System Used.

The frequent rains have made an unusual amount of road work necessary. On many of the roads which are in general passable condition there are a few mud holes that almost put a stop to traffic. This has been true of the old state road to Springfield.

Yesterday County Commissioner J. E. Osborne and L. V. Baldwin, superintendent of highways, spent the greater part of the day traveling over this road. The worst spot on the road has been a mud hole near the Orear farm about two miles from the county line.

John Ross is the patrolman for this road and with the assistance of Mr. Osborne and Mr. Baldwin yesterday quantities of brush were cut and placed in the roadway, this work together with grading, making the place passable.

As the result of the legislation passed by the last general assembly all state aid roads were taken over by the county authorities. In Morgan county that has meant the passing of 190.98 miles of such road under county management.

A special tax was levied for the purpose of maintaining these roads and the work on them is done without reference to road district funds.

Supt. Baldwin recommended the method of patrol now in use in the county and it has the approval of the state highway department. John Ross is the patrolman for the state road and has a stretch of twelve miles under his supervision. Mr. Ross is working on a yearly salary and is expected to devote all of his time to his duties. He is to do dragging, grading and all other work necessary. The condition of this road made such an arrangement advisable, as there is more work needed there than is true of most of the state aid roadways.

In other instances the patrolmen chosen have five miles of road under their supervision and they are expected to see that this stretch of road is kept constantly in good condition.

All of the patrolmen have not yet been named, but when the list of appointments is complete there will be about forty in the service. Men are being chosen for the work as far as possible who have manifested some interest in road improvement work, who understand the task to be performed and are willing to devote the necessary time and thought. These patrolmen are being engaged to serve just as long as their services are satisfactory.

Mr. Baldwin will keep in touch with the conditions by inspection trips and in various ways it is a comparatively easy matter to know just the kind of work that is being done on the state aid roads.

One cannot travel thru the county even under present conditions without realizing that wonderful progress has been made in these recent years in this matter of road improvement and maintenance.

## S. S. S. Fills Out Hollow Cheeks, Thin Limbs!

Men and women, whether you will ever build yourself up to your normal, just-right weight depends on the number of blood-cells in your blood. That's all there is to it. It's a scientific fact. If your blood-cell factory isn't working right, you will be run-down, thin, your blood will be in disorder, and perhaps your face will be broken out with pimples, blackheads and eruptions. S. S. S. keeps your blood-cell factory working full time. It helps build new blood-cells. That's why S. S. S. builds up thin, run-down people. It puts firm flesh on your bones, it rounds out your face, arms, neck, limbs, the whole body. It puts the "pink" in your cheeks. It takes the hollowiness from the eyes, and it fools Father Time by smoothing out wrinkles in men and women by "plumping" them up. S. S. S. is a remarkable blood-purifier. While you are getting plump, your skin eruptions, pimples, blackheads, acne, rheumatism, rash, tetter, hives are being removed. The medicinal ingredients of S. S. S. are guaranteed purely vegetable. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

OFFICIAL REPORT ON FLOOD SITUATION IS MADE TO GOVERNOR

(Continued from Page One)

one foot from the high mark of last week.

Levee Breaks at Ferriday.

Natchez, Miss., April 26.—Flood waters of the Mississippi were rushing tonight thru a crevasse which occurred at 4 p. m., today in Concordia parish, four miles north of Ferriday, La., at the Weccamma Levee. The gap in the levee line was reported to be 200 feet wide and rapidly increasing. No hope was held of stopping the break as the levee was said to be of sandy formation at this point and crumbling rapidly.

The break occurred at an unexpected point and few men were on duty in that section. The flood will inundate all of Concordia parish and a large part of Tensas, a part of Catahoula and possibly a part of Franklin and Avoyelles Parishes.

The section behind the break is one of the richest farming sec-

tions in Louisiana and is largely devoted to cotton planting.

The United States Steamboat Tania left the government fleet at Natchez tonight for the scene and every power boat in Natchez hastened to the affected territory for flood relief work. No loss of life was reported.

NEWSPAPER EDITORS FORM ORGANIZATION

(By The Associated Press)

NEW YORK, April 26.—At the first meeting of the board of directors of the newly formed American Society of Newspaper Editors today officers were elected.

Casper S. Yost, editor of the St. Louis Globe-Democrat was elected president. Other officers are:

First vice-president, Frank I. Cobb, of the New York World; second vice-president, E. P. Piper, of the Portland, Oregonian; secretary, E. C. Hopwood of the Cleveland Plain Dealer; treasurer, and E. S. Beck of the Chicago Tribune.

The purpose of the new society is to assist editors in a solution of a country-wide problem.

FOUR JURORS ARE CHOSEN IN SMALL TRIAL YESTERDAY

(Continued from Page One)

circumstantial evidence the defense has the right to go into the question.

With that understanding the jury was recalled and the court asked Mr. Leonard whether he would consider circumstantial evidence alone as when he replied in the negative the challenge was sustained.

The first panel was completed at 4:15 p. m., sworn in and sent to the jury's lounging room in custody of a bailiff while the state started work on the second panel. Within 15 minutes Mr. Dady had selected tentatively another four but court adjourned before he was ready to tender them to the defense for examination. The first four who will sit in the governor's trial are:

Alexander Smith, a farmer of Newport township, father of nine children. Yesterday he protested that if he was detained in court on this case for two or three months on a juror's pay of \$3 a day his family would "have to eat snowballs."

George Martin, of Highland Park employed as a grain elevator foreman by a Chicago Board of Trade firm, unmarried and lives at home, formerly was employed in the Continental & Commercial National Bank of Chicago, whose books have been subpoenaed by the state, which claims some of the alleged fraudulent transactions in state funds passed thru this bank.

William Barnard, married and a native of Porto Rico, employed by Lake Forest millionaire as a gardener on their country estates.

J. B. Fields, unmarried, son of an Antioch farmer, served overseas with the seventh division of regulars, drove a taxi for a while after his return and now is employed as a repairman at a summer resort hotel in the Fox Lake district.

When court adjourned the prosecution had examined Earl Washburn of Warren, and Norman Green, Fred J. Holm and Charles Owen, all of Waukegan.

Defense Protests Court Method.

Today's session was speeded up by a wedding out process adopted by Judge Edwards, over the protests of C. C. LeForge, chief defense counsel.

The court questioned the prospective jurors at the start as to whether they had a fixed opinion as to the governor's guilt or innocence and dismissed those whose minds had been made up.

Mr. LeForge entered a motion to the court's line of questioning.

Only 22 of the venire of 100 called for today were examined. Fifty eight were either dismissed for various excuses or failed to answer to their names, leaving 20 of the 100 for questioning tomorrow. A third venire of 100 has been subpoenaed to report tomorrow morning.

Starting this morning with four men in the box tentatively accepted by the defense prospects for speedy action were dampened when three of the four were lost within a few minutes. The state was forced to use the first of its preliminary challenges to get rid of Erwin Atkinson, who said his only opinion of the case, gained from reading some newspaper accounts, was "bunk."

Filling up a new panel of four the state tendered them to the defense, who promptly disposed of two under challenges for cause, they owning to having fixed opinions.

A new quartet was obtained to the satisfaction of Alexander F. Beaubein, of the defense, but his two additions succumbed before

the state's examination and there was still only two tentative selections in the box.

Four Are Accepted.

Not until the fourteenth man was reached did Mr. Dady fill the third seat by passing Mr. Barnard. The fifteenth man, Bert Lynch of Libertyville had a fixed opinion. Fields was sixteenth and was seated. The defense after brief questioning announced at 4:15 that the panel was accepted, but asked that they not be sworn in until tomorrow morning leaving the road open to exercise challenge then if new information regarding anyone of the four should develop overnight. Judge Edwards denied the request and directed the clerk to administer this oath.

The jurors were locked up tonight with the eight men remaining in the box when court adjourned and Judge Edwards directed the bailiffs to keep all newspapers from the jurors henceforth and forbade them discussing the case among themselves.

Governor Smith, seated at 12 lawyers' table, approved the four selected for the first panel before his lawyers accepted them. The governor is following the examination closely and joins in every discussion of prospective jurors by the attorneys.

KNIGHTS OF PYTHIAS WILL BUILD CLUBHOUSE

Preliminary Organization Effected Wednesday Night—Building Will Be Just South of Rotary Club House at Meredosia.

Members of Favorite Lodge No. 7, Knights of Pythias at a meeting held Wednesday evening perfected plans for the building of a clubhouse at Meredosia.

The building will be located just south of the Rotary club cottage and will be a substantial structure, costing between \$3,500 and \$4,000.

At the meeting last night Charles M. Godfrey was chosen as temporary chairman and Howard Pattillo temporary secretary. The meeting then proceeded with permanent organization and the following building committee and board of directors was chosen.

President—Dr. A. M. King. Secretary—Frank Bracewell.

The building committee is composed of T. C. Chumley, O. B. Cannon, Clarence McCarty, Charles Wolke, James Guyette, Dr. A. M. King, These men together with Dr. W. P. Duncan compose the board of directors.

The new clubhouse will be known as the K. P. clubhouse and will be erected by the 100 club. Sixty five of the 100 were present at the meeting last night and much enthusiasm was shown.

It is expected to begin work on the building at once and it will be completed and ready for occupancy some time in the early summer. The structure will be a splendid addition to the colony that is forming on Meredosia bay and will be a fine place for members of the order to spend the week end.

BUILDING MAUSOLEUM AT DIAMOND GROVE

Massive Structure Will Mark Resting Place of Members of Strawn Family.

Satisfactory progress is being made in the construction of a mausoleum at Diamond Grove cemetery, to be erected in memory of Jacob Strawn, his wife, Phoebe Yates Strawn, and Julius E. Strawn. The mausoleum is being erected by Gates Strawn and his brother, Dr. David Strawn.

In general dimensions the structure will be 13 1/2 by 21 feet, constructed of native unpolished granite. Nine crypts will be included in the structure with an open space in front 7 by 11 feet in size. The floor is to be done in marble. The huge stones which are to form the roof were brought overland from St. Louis by powerful trucks. They weigh something more than 18,000 pounds.

The three windows which afford light for the mausoleum are screened with copper grill work. The plans and specifications for this massive structure indicate that in every way it will be worthy of the Strawn name.

INSURANCE COMPANY MONEY FOR LOANS

Metropolitan Funds Available Here for House Building On Fifteen Year Repayment Plan.

The Metropolitan Life Insurance Co. has set aside a large fund for the purpose of relieving the housing shortage. Within a comparatively short time the company has lent \$75,000,000 thruout all parts of the U. S. for the building of homes and apartments. In this state three and one-half million dollars of the company's funds have been used for the purpose indicated.

Recently the Farrell State bank made arrangements thru the Chicago Trust Co. for the handling of such loans in Jacksonville. Under the Metropolitan plan a loan up to one-half of the combined value of the land and the net cost of building can be secured. However, under present rules \$5,000 is the largest amount to be lent for the construction of a residence, altho larger sums can of course be secured for apartment buildings. The loans run for a period of fifteen years and are

discharged by semi-annual payments. The average cost to the borrower is \$8.85 per month per thousand, this payment meeting both the principal and the interest on the loan in a period of fifteen years.

As already indicated, this plan of financing new home buildings has been used with very fine results in a great many cities in all parts of the country. In one southern Illinois town with a population of 5,000 loans on this plan have been made in the past eight months aggregating more than \$120,000.

**GREENE COUNTY RESIDENT PASSES AWAY WEDNESDAY**

White Hall, April 26.—The sudden death of Miss Eunice Kinser occurred at 6:30 a. m., Wednesday in her home in the Pleasant Dale neighborhood, six and one half miles west of White Hall. She was taken ill Tuesday, but a doctor did not attend her until being called at a time when he could not reach her before death had ensued.

Miss Kinser had evidently moved from a chair to her bed when she dropped dead, being found by her brother Alex, the two composing the home. Her age was 48 years, and she was so widely known and well connected that her sudden death is occasioning profound sorrow. The coroner arrived today to conduct an inquest, after which funeral services will be arranged to be held probably Friday in the Pleasant Dale church. The burial will be in the Kinser cemetery.

**UNIQUE WAYS TO SMUGGLE VALUABLES**

KOVNO, Lithuania.—A solid gold kittle, hanging from a stick over the shoulder of a ragged refugee who recently passed into Lithuania, has caused several customs inspectors to receive sharp reprimands from their superiors in Moscow. The kittle was dented and covered with tin and its owner was seemingly so impoverished that the inspectors allowed it to cross the border without bestowing more than a casual glance upon it.

Many clever schemes to smuggle valuables from Russia are revealed after their authors find themselves safe in Kovno. One traveler succeeded in passing the inspectors with diamonds and other precious stones valued at thousands of dollars concealed in sand-wiches.

When he reached here he threw the dried bread and meat which had screened his jewels to some dogs. A few hours later he discovered that one of his most valuable stones was missing. Ten dogs were killed before the diamond was discovered.

A characteristic feature of the project is that social studies are to form the backbone of the proposed junior high school curriculum with which other studies such as English, mathematics, and science are to be articulated.

(By The Associated Press)

SPRINGFIELD, Ill., April 26.—The city of Abraham Lincoln today laid claim to a top piece for Americanism. Canvases of the ten largest factories of the city completed by the Lion's Club showed there is not a single alien at work and that all workers of foreign birth have naturalized papers.

This "one hundred per cent American" the Lions claimed for Springfield was offset, however, the report said by the fact that there are eight alien Greeks in local candy stores, some of whom have been here since 1903. All of these aliens were also reported as unmarried.

**WANT TO HAVE WINE DAY IN ENGLAND**

LONDON.—English palates, long noted for their appreciation of fine old wines, are in danger of deterioration because of the lower price of vintages, according to a group of prominent wine merchants who propose an English "wine week" in emulation of the French custom. Wine, they declare, is no longer a luxury as the lower price has brought it within reach of all.

The purposes of wine week, it is said will be to educate the English taste for wines and also to instruct diners in the elementary rules and traditional usages of beverage selections. It is planned to gather a representative group of speakers and writes to sing the praises of wine, and to tell those who would learn how to drink it. The merchants expect substantial assistance from the governments of wine producing countries, such as France, Italy, Spain and Australia.

## HELD INSTALLATION SERVICE OF Y. M. C. A.

Was Held in Congregational Church Wednesday Evening—Banquet Preceded the Ceremony

Last night at Congregational church was held the annual installation service and banquet of the Illinois College Y. M. C. A. The banquet was held in the banquet hall at 5:45 P. M., it being served thru the efficient direction of Mrs. T. P. Carter and the ladies of the church, assisted by a group of college girls. The table was arranged in the form of a triangle, symbolical of the emblem of the

Association, and the decorations were blue lilacs. The regular program following the banquet was as follows: College Songs—Led by Roger Carter. Cornet solo—W. C. Rubendahl, accompanied by Frank Collins. Piano solo—Frank Collins. Congratulatory speech—Dr. Rammelkamp. Accomplishments—Elmer Nickel. Installation ceremony, conducted by W. G. Guild. Greetings from the new president—Arthur Howells.

Our Heritage—Owen E. Pence. The musical selections rendered by Mr. Rubendahl and Mr. Collins were highly appreciated and were applauded with great enthusiasm. Mr. Guild as chairman of the meeting gave an introductory talk commenting upon the installation service, and then introduced President Rammelkamp who spoke of his high regard for the Association. He expressed his hope that the College "Y" should prove itself capable of holding its place in the college life; that the leaders of the "Y" should be as loyal to it as to other organizations, thereby making its success possible. Mr. Nickel as the retiring president reviewed the work of the past year and re-emphasized the objective of the Association.

The men who took upon themselves their obligation as members of the new Y. M. C. A. cabinet were as follows:

President—Arthur Howells. Vice president—R. D. Furry. Secretary—L. W. Cummings. Treasurer—John T. Butcher. Committee chairmen—Social, Jesse Itner; membership, Eugene H. Mellon; Bible study, Glen E. Josephson; program, Elmer Nickel; service, Paul Gard; employment, Arthur Hart; publicity, R. G. Blauvelt.

Following the installation, Mr. Howells gave the dedication prayer, and continued with his message from the president-elect giving at his key-thought and motto for the new year, Mark 3:14—"And He ordained twelve that they should be with Him."

The student Y. M. C. A. secretary of Illinois, Mr. Owen E. Pence, gave the chief address of the evening. He made a few congratulatory remarks to the president and those who were entering upon the work with him, charging them that they were now a vital organized unit in a great movement. "The Y. M. C. A. is the increment of the lives of men. It is a partnership making the college a better place. It is no sub rosa enterprise, but it is an organization that stands high in the esteem of all men having as its objective the ideals of Jesus Christ."

Mr. Pence gave a brief history of the organization, telling of its birth in the mind and activity of George Williams, a London dry goods clerk some eighty years ago. He ended his remarks by expressing the hope that every one present should be a prospect for the Geneva conference in June.

The new cabinet met for its first formal meeting immediately following the banquet.

HIGHER GASOLINE PRICES IN PROSPECT

W. H. Cocking Believes Shortage of Supply Will Cause Increase in Coming Months.

W. H. Cocking in conversation yesterday made the prediction that the retail price of gasoline will be between 25 and 30 cents a gallon this summer. "Possibly I ought not to even express an opinion on such a subject," said Mr. Cocking, "but as I see the situation the price of gasoline is certain to be higher. Statistics show that the stocks of gasoline are very much below normal and we are just entering upon the period of heavy consumption."

"While the Standard Oil Co. has a moderate supply in storage, this is not true of the independents. One reason for the shortage can be found in the fact that while in past months there has been a fair demand for gasoline there has not been a demand for some of the by-products which result when gasoline is being produced. The larger companies will not sell a dealer gasoline for delivery next July or August at a fixed price. Some of the companies will not accept orders at all for the products they care to book, and prefer to leave at least some portion of their holdings free."

"With a genuine shortage existing and the larger seasonal demand coming, it comes to me only reasonable to expect a gradual increase in price."

VERDICT RETURNED IN SUIT FOR WAGES

The Blakeman Produce Co. shipped a carload of eggs the first of the week to Newark, N. J. Miss Pearl Gidney of Jacksonville spent Tuesday with relatives in Manchester.

Announcement was made yesterday of a concert to be given by Sergei Radamsky, noted Russian tenor, at Central Christian church Tuesday, May 9th. The proceeds of the concert will be devoted to the pipe organ fund which the church is now raising.

Miss Edna Sheppard, who arrived Tuesday evening for a visit at her home here, served as accompanist for the Russian singer during his recent tour of eastern states, and will appear with him at the concert to be given locally.

Sergei Radamsky was born in Russia and the early years of his musical career was spent in that country. Afterward he sang in opera in Germany and Italy and also in Greece and Egypt. A number of years ago he came to this country and his first appearance was with the Century Opera Co. When this company was disbanded he returned to Europe and sang in both opera and concert in a number of Italian cities.

A number of years since the noted Russian tenor returned to the United States a second time and has been doing concert work here. He expects to take up opera again next season.

A tour of the middle eastern states has just been completed, concerts being given in all the principal cities. Miss Sheppard served as accompanist during this tour.

Radamsky will appear in the Messiah at Pittsburg, Kansas, the oratorio being presented in connection with the annual spring festival there. This will be his second appearance in the Kansas city.

A special feature of the Radamsky concerts is the Russian folk songs which are given with true native ability. The Russian sings in six languages besides his own and his concerts are well worth hearing.

## PIMPPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cured with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face. Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look! 15c and 30c.

## ARMSTRONG'S Drug Store Great Refund Offer

To Jacksonville People Who Are Weak, Sickly, Nervous Or Run-Down

**IMPORTANT NOTICE:**—By special arrangement, we can now extend to any person in Jacksonville who wants more strength, energy and endurance, the opportunity of using Nuxated Iron so that if you do not get all and even greater benefits than you expect, it will not cost you one cent, because we ourselves will promptly return your money.

You may wonder how we can afford to do this. The answer is that week after week a large number of people of Jacksonville come into our store for Nuxated Iron; throughout the country over four million people use it annually. Blood examinations by physicians all over the country show that an enormous number of people do not have enough iron in their blood. Without iron the blood becomes thin, pale and watery. In many cases this so seriously weakens the vital organs that people often believe they have heart or stomach trouble, kidney diseases, nerve force exhaustion or some other serious ailment. They have pains and palpitation of the heart, sudden dizziness, faintness or spots before the eyes, when as a matter of fact the trouble is all due to lack of iron in the blood, and when iron is supplied, all of these symptoms disappear.

Genuine Nuxated Iron contains organic iron like the iron in your blood. So many people are deficient in iron who would surely be benefited by this remarkable remedy that we recommend that you come right to Armstrong's Drug Store and get a bottle of Nuxated Iron, use it for two weeks and note the improvement in your own case. You are the judge—if you do not get all and even greater benefits than you expect, just bring back the wrapper and we will promptly refund the full amount you paid.

**NAL DAYS FOR TAX PAYING ARE HERE**

Property Owners Are Crowding Collector's Office to Make Payments Before May First—Receipts Average \$25,000 a Day.

These final days of April are exceedingly busy in the office of W. Weatherford, sheriff and collector of taxes. Sheriff Weatherford and Deputies Perry, Andrews, Roach and Wright are all busy with the work of issuing receipts. Each year an increasing number of people pay taxes thru their banks and the necessity of making a personal trip to the collector's office. Notwithstanding this, in the case, the great majority of property owners pay taxes in the district method and for the most part wait for this process until the final days of April.

ing to Office Deputy John J. Ferry are running from \$25,000 to \$30,000 a day. With such congestion of business it is no small task to have all the records in correct form. While business conditions are not accounted as normally good, the indications are that the list of property sold because of the non-payment of taxes will not be larger than usual.

## WILL SOLICIT MEMBERSHIPS

Directors of Savings and Loan Association Outline Plans for Campaign—Week of May 22 Selected for Campaign.

The directors of the Jacksonville Savings & Loan Association held a called meeting at the Chamber of Commerce Tuesday evening and adopted a plan of solicitation for new members.

The eight directors will each select two members from the committee appointed by the Chamber of Commerce to cooperate in a canvass of interested parties, who are desirous of taking out shares in the association as an investment.

The week of May 22 has been determined as the most opportune time to call upon the public, as the next series of the association will open July 1st.

It is the plan of the directors to secure sufficient investors, so that the monthly payment of the Savings & Loan Association will amount to several thousand dollars, thereby providing funds to supply the increasing demand of those wishing to borrow and build or buy homes.

Already a large number have expressed their intentions of taking out shares in the new series July 1, the limited number will still be issued to those desiring to pay back and commence in the January series.

## INTEREST WIDESPREAD FOR FLOOD BENEFIT

Public Schools Subscriptions Amount to \$230 — Odd Fellows, Passavant and Postoffice Workers Contribute—Illinois College Campaign Monday.

The schools of Jacksonville are making a remarkable showing in raising funds for the refugees of the flood districts. Much interest has been displayed by the pupils, which shows their attitude towards their less fortunate neighbors. The following report was made last evening concerning the various school subscriptions:

High School.....	\$74.45
David Prince.....	\$41.14
Open Air.....	\$ 4.08
Lafayette.....	\$36.14
Washington.....	\$34.40
Franklin.....	\$20.50
Morton.....	\$15.54
Independents.....	\$ 3.75
Total.....	\$230.00

The Senior Class of the High School contributed \$10 to the fund from their treasury, the remainder being contributed by the pupils, teachers and janitors.

Students of Illinois College are contributing toward the flood relief fund. Coach W. J. Harmon is chairman of the soliciting committee and a complete report will probably be ready today or tomorrow. The fact that this subscription is being taken is only one of various reasons for the feeling of the general committee that the Jacksonville fund will easily run well above the \$5,000 mark.

Ridgely Encampment I. O. O. F. has given \$25 toward the fund and like sums have been subscribed by Uralia Lodge No. 243 and Illinois Lodge No. 4. I. O. O. F. The \$25 given by Temple Encampment No. 19 has already been reported. This makes the sum of \$160 given by the Odd Fellows of Jacksonville. While the money must under the rules of the order be sent to its own representatives at Beardstown, the amount should be credited to the Jacksonville total.

Nurses and others associated with the work at Passavant hospital have made a contribution of \$22.25 for flood relief work. All who were asked readily assisted with the fund.

Still another group to have part in the flood relief work the employees of the Jacksonville post-office have joined liberally in the relief program and the following persons contributed a total of \$35.

Ralph I. Dunlap, Thomas Harber, E. T. Bussey, F. C. Koenig, Andrew J. Cobb, Henry A. Ricks, Glenn Skinner, E. G. Sibley, S. S. Retzer, E. D. Herald, John Magner, Alfred R. Leake, John Higler, Ray Packard, Roy Richardson, J. S. Peckham, S. F. Boston.

### ELI RECEIVES ORDER BY RADIO

Probably the first order to reach Jacksonville was received by the Eli Bridge company yesterday. George Wackerle at the Illinois Woman's college caught the message which came from A. H. Cain, proprietor Cain's garage at Roadhouse. The message read as follows:

"Ship 100 23 Watt lamps. Best regards to bunch.

"A. H. Cain."

Mr. Cain is one of the pioneer wireless enthusiasts of this locality. He had a complete wireless telegraph station previous to the war and was one of the first to install both a sending and receiving set of the latest type wireless telephones. Several of these sets are in active operation in Roadhouse.

The EH company is listing now for a big EH wheel order by wireless and is ready to fill the order promptly upon receipt.
